## Follow Excel Easy

This example shows two ways to compare text in Excel. One is case-sensitive and one is case-insensitive.

1. Use the EXACT function (case-sensitive).

	A	B	C	D	E	F	G
1	Pie Chart	Pie chart	FALSE				
2	Gantt Chart	Gantt Chart	TRUE				
3	Pareto Chart	Parto Chart	FALSE				
4	Thermometer Chart	Thermometer Chart	TRUE				
5	Trendline	Trendline	TRUE				
6	Sparklines	Sparklines	TRUE				
7							
8							

2. Use the formula =A1=B1 (case-insensitive).

	A	B	C	D	E	F	G
1	Pie Chart	Pie chart	TRUE				
2	Gantt Chart	Gantt Chart	TRUE				
3	Pareto Chart	Parto Chart	FALSE				
4	Thermometer Chart	Thermometer Chart	TRUE				
5	Trendline	Trendline	TRUE				
6	Sparklines	Sparklines	TRUE				
7							
8
